***Review Meeting on Project: ASDN/GP-003/Foldscope/NE/DBT 2018***

*The Principal Investigator of the project Dr. Jyotchna Gogoi presented the progress of the project during the period **(September – October, 2018)** and the current status of the funds under different headings such as consumable, contingency and travel. She mentioned about utilization of Foldscope by students of Department of Biotechnology and Biochemistry, Assam down town University in regular course curriculum. The Principal Investigator also briefed about the reach out programs organised so far at high schools and explained in brief about the demonstration of Foldscope utility and practicals done in Bonda Anchalik High School and Parijat Academy. The experiment will be continued as a part of the awareness program amongst the school going students.*

*The Director Research requested the project team to organise one day joint workshop/ awareness program in association with their twinning partners at Assam down town University campus, where the representative of nearby school students in group along with their coordinator may also be invited to participate at the workshop. Such workshop may also help to popularize the use of foldscope as a research tool.*

*More such awareness programme along with practical exposure/demonstration to the students of nearby schools will be conducted by the project team.*
